“Security camera slide show provided by CGPD”

Items to consider:

- **Budget?**

China Grove

Population Growth:
China Grove's population has been steadily growing, with a current population of around 1,400. As the community grows, so does the need for enhanced security measures to maintain public safety.

Proximity to San Antonio: Located just 12 miles east of San Antonio, China Grove is in a corridor that experiences spillover effects of crime from larger urban areas. Installing Flock Safety cameras can help protect the community from such threats.

Crime Rates in Nearby Cities: Cities near China Grove, like San Antonio, have seen increasing crime rates, including vehicle thefts and burglaries. Early detection of vehicles involved in crimes is critical for small communities like China Grove.

Success in Neighboring Areas: Nearby towns and cities in Texas that have deployed Flock Safety have reported positive outcomes, such as increased crime clearance rates and faster recovery of stolen vehicles, adding credibility to the need for such a system in China Grove.

What this is:

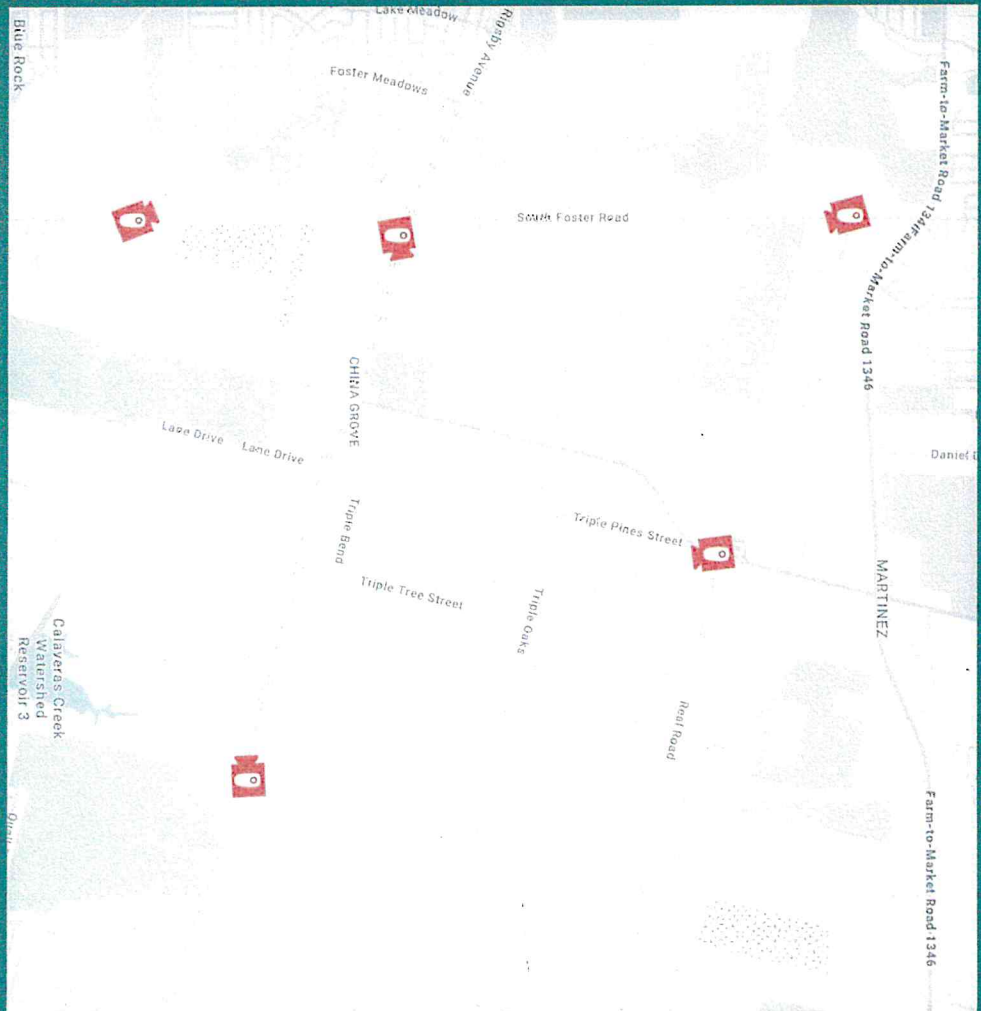

- License Plate Recognition (LPR)
- Gathers objective evidence and facts about vehicles, not people
- Alerts police of wanted vehicles
- Used to solve crime
- Adheres to all state laws

What this is not:

- Not facial recognition
- Not collection of biometric or sensitive information
- Not used for tracking speed or parking violations
- Data automatically deletes every 30 days

Perimeter Package

- 5 Falcon
- Cover main Ingress Points
- Deployment [Site Map](#)

Flock safety

Protecting privacy

- Footage owned by Agency/City and will never be sold to private third parties by Flock
- 30-day data retention, then automatically hard deleted
- Takes human bias out of crime-solving by detecting only objective data
- All data is stored securely with end to end encryption of all data

Accountability mechanisms

- Search reason and user number saved in indefinitely-available audit trail
- NOT facial recognition software, NOT collecting biometric information
- NOT used for parking enforcement or tolls
- Not connected to registration data or 3rd party databases (Carfax, DMV)
- Transparency Portal (free and optional)

Privacy Commitment

Let's defeat crime together.

Our commitment to protecting the whole community

Flock Safety helps thousands of cities prevent and eliminate crime with technology that captures objective evidence and delivers it into the hands that serve and protect. In our pursuit of a safer society, we place our commitment to protecting individual privacy and mitigating bias at the core of every policy and product we develop.

WE FOCUS ON PROTECTING PRIVACY AND ENABLING ACCOUNTABILITY

- Flock devices only capture objective evidence, whether vehicular, audio, or video. Flock does not enable predictive policing.
- Flock devices do not connect to databases to identify name, identifiers, addresses, or other information about people.
- The system always requires a documented search reason or case number every time a user accesses Flock data, creating a permanent audit trail for every user.
- Customers own 100% of all data captured on our devices. We never share or sell data with third parties.
- All images and metadata are encrypted in the cloud for maximum security compliance.
- Flock has created the first LPR Transparency Portal, provided to customers optionally for free, to document LPR usage, policies, and ROI for their community.
