To the extent the Owner/Applicant with an estimate of fees should outside consul	ion review or predevelopment ntracted engineers, planners, possible, City Staff will provide

In situations where Staff anticipates the City's out-of-pocket expenses for professional services related to review of an application will exceed the amount recouped by the imposition of standard fees, the City may require the applicant to pay a deposit of \$1,000.00 to \$10,000.00. Examples of such projects may include (but are not limited to) voluntary annexations, subdivision plats, rezoning requests, and planned development districts. The deposit shall solely be applied to payment of professional services by City Consultants (engineers, planners, attorneys, surveyors, architects, lighting consultants, etc.), that are specifically and directly related to the applicant's proposed project. Payment of this deposit shall be an express condition of the City's review of and determination upon the application. Payment of the deposit does not guarantee approval of the application. Nor does payment of the deposit shall be replenished upon depletion within 30 days of being notified by the City in writing. Unused account balances shall be reimbursed to the applicant or applied to future permit applications, at the applicant's discretion.

These fees are non-refundable.
